

FCC, I never thought I would see the day when I was being told by our government what i can spend my EARNED money on. If i choose to purchase satellite radio service, that is entirely my decision. As for the NAB trying to stop satellite radio, that shows what guts they have. Instead of being upset at satellite radio, the NAB should be upset with the FCC, for it was truely the FCC that has destroyed public radio. I hope after this coming election alot of things will change. I have been a voting Republican for as long as I've voted, but I think our country is way too Republican. Our freedoms have been drastically reduced in the past 3 or 4 years, now you're trying to tell me what i can and can't listen to on the radio. Enough is enough !
